## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) ~~2~~-11 and 13-22, drawn to methods of treatment/prevention of sepsis using the first technical feature tumor cytotoxic factor-II (TCF-II).

Group II, claim(s) 12(a) and 23(a), drawn to method of treatment/prevention of sepsis using the second technical feature hepatocyte growth factor.

Group III, claim(s) 12(b) and 23(b), drawn to method of treatment/prevention of sepsis using the third technical feature of scatter factor.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: each of the groups use special technical features that are known to the art as evidenced by the reference of the search report. As such, the technical feature used in the method is not "special" pursuant to PCT Rule 13.2 in that it does not

Art Unit: 1645

define a novel contribution over the prior art. Additionally, the groups are separate from each other because they use different technical features and the practice of one invention does not require the others. The technical features are separate each from each other because they are distinct chemical entities as defined by their primary structure, methods of isolation and biological activities.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. Any inquiry of a general nature or relating to the status of this general application should be directed to the Group receptionist whose telephone number is (703) 308-0196.

Papers relating to this application may be submitted to Technology Center 1600, Group 1640 by facsimile transmission. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). Should applicant wish to FAX a response, the current FAX number for Group 1600 is (703) 308-4242.
